THE TRIAL OF DAVIS POSTPONED THE OCTO

The Trial of Davis Postposki the Octoure Judge Underwood was in conference agein on Monday with the law officer of the Government in regard to the trial of Jefferon Davis. It appears that Chief Justice Chase, is anxions to have the matter postponed until the hot weather is over, and has expressed this wish to the Attorney General. The Lout will meet on the sixth of June as which thine the chrestion of the trial will come up. Judge Unicawood, however, under instructions, will have the majer to professed until October, at which thine the case will certainly be tried on the indictment found against Davis at versely in the mean time, the Government has given full permission to the counsel of Davis to have free access to the presence, with the view of allowing these to prepare the case for proper defense.

threw Tom Seymour overboard, because of his andisguised sympathy with the rebellion. They took English for their standard bearer, but ever with so popular a candidate, and with Presidential patronage and countenance they failed, even in that closely contested State. In Ohio, the Domocrats are more frank and

above-board. They still acknowledge the leadership of Pendleton and Vallandigham, than during the war there were not in the North two Democratic politicians more notori-ously and shamelessly disloyal. Both coveted martyrdom, and got it for their Secesh proclivi-One was run for Vice-President by a party which declared the war a failure and advocated other was banished from the country.

The fact that men with so treasonable a re-

Or does it prove that Johnson has wandered from the faith, and that Pendleton and Vallandigham are only consistent with themselves-that they are as faithful the pions of State rights and Slavery, now as heretofore and always! The Democratic platform which emanates from

the hands of the man who boasted that he never voted to raise a mon or a dollar to aid the Gov. ernment to crush the rebellion, and his yoke tellow who told Commissioner Guld that if the South could only hold out this year the peace party of the North would sweep the Lincoln dynasty out of political existence is just what we might ex-

The Constitutional amendment abolishing slavery is of no binding force because those of the Southern States wh voted for it, at the time were acting under compulsion and only a part of the States represented In our Congress. Such a principle of course invalidates all the legislation of Congress during the war. The Union party of Ohio will thank their opponents for so frank a declaration of their views and purposes if restored to political power. It is such an lastic as they will like to

He is one the ablest members of the Penusylvania delegation. His speeches and votes have been cultichtened, consistent and patriotic, and he well deserves the compliment of a renomination. It is needless to say that his re-election is certain.

DROWNED .- Two young men by the name of Charles S. Wood and Edward Murniy were drowned at Reno on Saturday last. They were crossing the Alleghany in a hoat, with two other parties, when one of the passengers in the act of releiving an oarsman, caused the book to larely and fill with water, and all were precipitated into were unable to swim and found a watery grave; the others reached the shore in safety. Wood had sorved in a Wisconsin regiment during the war, and he and his companion, Murray, were in the employ of the Alleghany Raffer pany. Their bodies were not recovered at last

ATTENTION TO ROLL CALL. The Oil City Phre. We extract the following account of the latare at Oll City from the Monitor's extra of Mon-

On Saturday morning at cloven o'clock one o the most destructive fires broke out in this city ever known in the oil regions. The fire originated in a laundry on Low street, near Centre street. The alarm was promptly given, and hundreds assembled at the place in less than ton minutes. Every man seemed to take an interest in checking the flames, for the entire city was in danger; but as the day was pleasant, and a strong breeze came up the Allegheny, it was impossible to prevent the spread of the flames with the facliffies to be obtained. Lines were promptly to the nearest wells and the water exhausted, yet to no advantage. Soon the fire was across to Seneca street. As the fire spread, the ntensity of the heat became so great as to render it impossible to approach, so the only atte native was to remove the contents of the buildings on Seneca and Low streets. Many only removed their furniture Into the street, where it vas almost as soon destroyed as their buildings. As the fire crossed Beneca street and approach d Centre street with unchecked rapidity, the exdtement became intense. Until now few realized the great danger. Nothing was in the power of humanity to save the whole or any part

of Centre street with all its extensive stocks of hardware and dry goods. Teamsters were in great demand, and beatmen were pressed into service at exorbitant prices. Goods were rushed out in the rear of stores in topsy-turvy style and in stampeds haste. By twelve o'clock it became apparent that the whole of the east side of Oil City must be destroyed.

Merchantite Building, the new and magnificent block erected by Messrs. Gordon & White, burned in a very short time, and the M. E. Church and School-House followed.

Crossing the street at the foot of Cottage Hill the flames rushed madly onward as if bent on total destruction of the residences all the way to the summit-women and children hastened from their homes, in many instances to see their all burned by the mad element. Fortunately, however, the flames were cheeked before crossing Grove avenue, thus saving all of Counge hill The whole of Centre, Sencea and Low streets were burned to the limits of the city, also portion up Plumer rand, the whole of the way so far as residences extended. By stien uous efforts the fire was prevented from crossing the creek at the foot of the bridge. Had it crossed here or had the oil tunks of S. M. Kier & Co. caught fire, the west side of the city must have gone too.

Burglary in Enterprise. Editors Morning Herald .

About midnight last Tuesday, Mr. D. H. Mitch ell baving occasion to be in the street observed two men in suspicious conversation and deter mmed to observe their movements. He soundlscovered them examining Mr. Dibbles' store, and finally taking down one of the shutters; but after holding a short conversation it was replaced .-One of the burglats taking a position as watch, the other proceeded to the rear of Mr. T. V. S. Moed and grocery store; and by passing through a window and foreing one door

his way into the salesroom.

At this juncture, Mr. Mitchell, stepping from his place of observation, approached the subfer on watch, when he made his way off up the street oward Pleasantville, at the same time giving the signal whistle to his companion; but he being Up to this time Mr. Mitchell was without arms,

and stepping round to Victor S. Benedict's roun, tapped gently and obtained his pistot. He now proceeded to the rear of Morian's store, and lis ened and waited for his victim, who soon made his appearance and was immediately arrested,-Assistance reaching Mr. Mitchell he placed the nurghn in charge of John Sincox, and went in scarch for his accomplice when the burglar unde a break, getting loose from Sincox. A chase now commenced, Mitchell firing at him as he ran. He was soon brought to bay under an old store and secured, disgorging some \$15, the proceeds of his felony. Watch being set, the other was taken prisoner and both sent to Warren this morning where we trust they will be supplied with hoar rough looking felous, and this is probably not their flist offence. They gave for names "John McCarthy" and "Shamless Moore."

The prisoners stated that they were at the lat fires in Oil City and at the Grant House, in Franklin. They were recognized by a gentleman from Toronto, who says they are probably fugi-tives from justice in Canada. They may have given fletitious names. Very respectfully, yours JOHN A. BRIGHT.

The first thought of the three in the kitchen was to get out of the house, but the lack door was locked, and the servant fortunately could not find the key—fortunately, for in a moment more the whole wall of the upper story fell out into the yard, making an immense-pile of brick morlar, &c., which would have inevitably crushed them, had they succeeded in unlocking the door. The troat wall of the house was also much shattered, being pressed out by the force of the explosion. No one, strange to say, was in the least injured. The cause of the explosion was in the front parlor, where a gas fitter had been arranging for a new fixture, and had carelessly left unstopped, so that the house was literally filled was gas.

INFRINGEMENT OF A PHOTOGRAPHIC PATRICT. -In 1854 Mr. Jas. A. INCOMES NOT TO BE PUBLISHED.-The Committee of Ways and Means have wisely concluted that the list of Incomes shall not be formed of for publication. The object of publicity was to mears correct returns, but If a num intend to commit perjury he will not be deterred by a regard for public opinion. The only effect was to gratify the fille curtosity of husy-bodies. There will probably be a great falling off of revenue this year from this source. Not only becaus peculation is quiet and all commercial business less profitable but because one thousand dollars incomes are likely to be exempted.

BANKING HOUSE AT PETROLEUM CENTRE. Soon after the failure of A. D. Cotton & Co., Bankers at Petroleum Centre, the firm of Geo. II. Bissell & Co. opened a banking and exchange office, at the general business rooms of the Cen tial Petroleum Company, and have been doing a large business. Mr. Bishop, President of the Central Petroleum Company, is the "Co." of the firm. The growing business of the concern necessitates better facilities and more room, and they will soon move to the quarters formerly cupled by A. D. Cotton & Co

The Central Petroleum Company will soon be gin the erection of a tasteful and commodion brick building on the corner of Washington street and the Cherry Tree road. The ground floor will be used for the Postofflee and the book and stationary store and news room of Messrs. Blackman & Nicholson, and a banking room fo Messis, Hissell & Co.

We are glad to chronicle such evidences of prosperity at the Centre. The card of the bank-ing house will be found in our columns this aorning.

managed by auprincipled parties who impose on public creduity. In this instance the facts are quite the reverse. Mr. Crittendeu's references are Messrs. F. W. Ames, J. T. Chase, R. D. Flotcher, J. T. Briggs, C. G. Dalfield, and W. W. Ringsland, gentlemen who are prominently known throughout the oil region. We have carefully examined the schedule and are confident there is nothing feticious or unreal about it. It is a matter of fact sate of anencumbered erty at par value, by an extensive plan o distribution among ticket holders to an unex ceptionable entertainment, and does not in any manner conflict with the common or slatutory

den's object in this matter. He has built and farnished at an enormous cost the targest and best hotel in the oil region. In giving it his exclusive personal attention, and devoting his en-tire capital to its success, it necessitates the sucon of his former business and the disposa pension of his former obsides and the obsposar of all other property. Every person interested in the reputation and pro-perity of Titusville should appreciate the necessity, of sustaining an enterprise of this character. The price of the eta. olders will receive gifts, and some of them wi have abundant cause for rejoicing.
